Experience Summary

- I am a senior full-stack developer and seasoned systems architect with over 6+ years of experience in Angular & .NET Core.
- I have a proven track record of delivering high-quality, scalable solutions on time and meeting critical project deadlines.
- With expertise across both front-end and back-end technologies, I excel at building seamless, performant web applications from end to end. Let's talk and see how my experience will help your business.
- Too many projects to list on a resume; let's talk and find out how I can help the company grow!
